ABOUT ME

Software Developer with 6+ years of experience in the industry, focused on Clean Architecture and writing clean, maintainable code. Passionate about working with modern technology stacks and continuous learning. I value knowledge sharing and collaboration within dynamic teams to achieve common goals and deliver high-quality solutions.

EXPERIENCE

Play Store Application | Film Dex

- Developed an app to carry out a project from start to finish independently
- Tech Stack: TMDB API | Firebase | Clean Architecture | Jetpack Compose | Material3 | Koin | Ktor | etc.

Android Developer | Artekium | September 2022 – Present (3 years)

- **Android Project with Kotlin / Java / XML – Prosegur Alarmas Spain App*(bugfix & features)***
  - Bug fixing & feature implementation.
  - Migrated code from Java to Kotlin.
  - Client interactions in a listening capacity.
- **Android Project with Kotlin / Compose – White Label GYM App**
  - Defined and developed the app from scratch (architecture and tech stack).
  - Led team organization and made key technical decisions.
- **Hybrid Project with React Native – Policy Management App**
  - Actively participated in defining structure and functionalities with the client.
  - Designed the application architecture.
- **Kotlin Multiplatform (KMP) Project with Kotlin / Compose – Stock Management App for Reciklo**
  - Developed the app from scratch to production with direct client collaboration.
  - Defined and distributed functionalities across Android and iOS platforms.
  - Implemented KMP to share business logic.
  - Managed project scope and planning to meet specific requirements.
  - Led team organization and technical decision-making.

Data Analyst | CoreBI | October 2019 – September 2022 (3 years)

- Bash terminal scripting.
- Process automation with Control-M (Claro).
- Dashboard creation in Power BI (TECME).
- ETL processes using SSIS and Pentaho (Vital Can - ASSIST CARD).
- Database management (Telefónica).

QA Tester | SysKey | December 2018 – September 2019 (1 año)

- **Testing** tasks and documentation.

SKILLS

- **User Interface Design:** XML, Jetpack Compose, Material Design.
- **Architecture Patterns:** MVVM, Clean Architecture.
- **Dependency Injection:** Dagger Hilt, Koin.
- **Data Persistence:** Room, SQLDelight.
- **Server Communication:** Retrofit 2, Ktor.
- **Reactive Programming:** LiveData, Coroutines.
- **Testing & Debugging:** Debugging tools.
- **Version Control:** Git, GitHub, GitLab.
- **Agile Development Methodologies:** Jira, Agile/Scrum.
- **Multiplatform Development:** Kotlin Multiplatform (KMP), React Native (mentioned but not emphasized).
- **Modern Trends & Tools:** Android Jetpack, Server-Driven UI, Firebase, Artificial Intelligence.

EDUCATION

- **Higher Technical Degree in Programming** – National Technological University (UTN).
- **Diploma in Kotlin** – Edutin Academy.
- **Plan 111 Mil Certification** – Java.
- **Jetpack Compose Certification** – Kotlin.
- **Android Architectures Certification** – Kotlin.
- **Alkemy Acceleration Program** – Kotlin.
